Mayor Wright welcomed Chief Peter Brower of the Ramapo Police Department.

Tina Scarlett spoke on behalf of the residents of Hazelwood Road requesting that storm drains be installed on the public roadways above Dogwood Road. Mayor Wright indicated that he will contact the Village Engineer.

Mr. and Mrs. Watts spoke about Hillside Road and the off road vehicles that frequently travel the roadway. They also commented that there are barriers on the hill where Hillside Road ends which has changed the course of the water runoff causing water and mud to flow onto their driveway and property. Mayor Wright commented that the Village has contacted the property owners in the past to address the conditions but the owners have not responded the way they would have liked. The Mayor suggested they come back in two weeks and the Village will contact the Village Engineer and ask the Village Attorney to also take a look to see what course of action to take. The Mayor will also ask the Police Department to patrol.

Fire Alarm at Municipal Building

Trustee Buckley reported that the fire alarm has not worked in a while. The Village Clerk contacted Suffern Lock and Alarm and they indicated that all the wiring has to be replaced. The Village Clerk will check to see if the Village has a contract with them.

Update on Sewers

Mayor Wright reported that the project is moving along very well. Montana Construction has been cleaning the streets regularly. Trustee Buckley commented that the Sewer District needs to provide the Fire Chief with a key in order to get sand bags if necessary.

Mayor Wright asked for any comments or questions. David Pererya asked about the paving schedule. Mr. Bollatto responded that the plan is to do all the milling first and then go back and do the paving but he is waiting to get a commitment from the company. He also asked about the pipe break in Pine Grove and if it was due to sewers. Mayor Wright commented that it was not caused by the sewer project. Mr. Pererya asked if the flooding that took place below the lake in Pine Grove has been resolved. Mayor Wright responded that a number of people have been in touch with Mr. Stritmater and it is their understanding that he has been compensated for the damage.

Tina Scarlett asked who was responsible for the silt and sediment and subsequent flooding on Seven Lakes. Mayor Wright commented that Montana Construction has been very responsive and he agreed that it should be cleaned up sooner rather than later.

Mr. Pererya then commented about a commuter parking lot issue that had been resolved to his satisfaction. He commented about flexible hours for commuters to purchase passes. He also commented on the durability of the commuter passes. Trustee Akey suggested some alternative options for commuter parking passes that the Board will look into.
